An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 230, Nos. 1 & 2, January (II) 2002

GUANYLATE CYCLASE

Dr. Rameshwar K. Sharma

| | |
|--|---------|
| Preface | 1 |
| R.K. Sharma: Evolution of the membrane guanylate cyclase transduction system | 3-30 |
| J. Tremblay, R. Desjardins, D. Hum, J. Gutkowska and P. Hamet: Biochemistry and physiology of the natriuretic peptide receptor guanylyl cyclases | 31-47 |
| K.S. Misono: Natriuretic peptide receptor: Structure and signaling | 49-60 |
| K.N. Pandey: Intracellular trafficking and metabolic turnover of ligand-bound guanylyl cyclase/atrial natriuretic peptide receptor-A into subcellular compartments | 61-72 |
| A.B. Vaandrager: Structure and function of the heat-stable enterotoxin receptor/guanylyl cyclase C | 73-83 |
| M.G. Rambotti, A. Spreca, I. Giambanco, G. Sorci and R. Donato: Ultracytochemistry as a tool for the study of the cellular and subcellular localization of membrane-bound guanylate cyclase (GC) activity. Applicability to both receptor-activated and receptor-independent GC activity | 85-96 |
| K.-W. Koch, T. Duda and R.K. Sharma: Photoreceptor specific guanylate cyclases in vertebrate phototransduction | 97-106 |
| T. Duda and K.-W. Koch: Calcium-modulated membrane guanylate cyclase in synaptic transmission? | 107-116 |
| V. Venkataraman and R.G. Nagele: Calcium-sensitive ROS-GC1 signaling outside of photoreceptors: A common theme | 117-124 |
| V.A. Bondarenko, H. Yu, R.K. Yamazaki and A. Yamazaki: A novel role of RGS9: Inhibition of retinal guanylyl cyclase | 125-128 |
| T. Duda and K.-W. Koch: Retinal diseases linked with photoreceptor guanylate cyclase | 129-138 |
| E.V. Olshevskaya, A.N. Ermilov and A.M. Dizhoor: Factors that affect regulation of cGMP synthesis in vertebrate photoreceptors and their genetic link to human retinal degeneration | 139-147 |
| J.U. Linder and J.E. Schultz: Guanylyl cyclases in unicellular organisms | 149-158 |
| M. Russwurm and D. Koesling: Isoforms of NO-sensitive guanylyl cyclase | 159-164 |
| T.C. Bellamy and J. Garthwaite: The receptor-like properties of nitric oxide-activated soluble guanylyl cyclase in intact cells | 165-176 |
| A. Sitaramayya: Soluble guanylate cyclases in the retina | 177-186 |
| Index to Volume 230 | 187-188 |
| Instructions to Authors | 189-193 |
